STATOTHR                    2. I informed Mr. Hefner, of Sen. Wiley's office, that I had seen his friend [redacted] and that there was nothing which CIA could accomplish for him. I [redacted] pointed out, however, that I had referred him to the Legislative Liaison office of the Department of the Army which had control over the unit/which [redacted] formerly worked as an alien and that [redacted] had formerly talked at length about his problems with a senior official of this Agency.
